

More information about the Event Costa del Sol

Get to know Costa del Sol better and at the same time receive a full introduction to buying process in Spain for companies.

If your company plans to implement this now or in the future, this will provide valuable information which can ensure that the right decisions are made, and all the practical and legal aspects are taken care of.

At the same time, participants get the opportunity to see selected projects or customized viewings. Our partner has access to approximately 95% of all properties for sale in the area, so the selection is nearly complete. In addition, we have an extensive overview of planned construction projects and investment opportunities.

There will be an opportunity to participate in a group or individually, except the event at Hotel Kempinski on September 17th. We therefore offer different participant packages to choose from, according to what best suits you and your company.

In advance, in order to plan well and get the best result from viewings, we will collect information/wishes for those. This will take place after the registration and well before the event.

Submit your registration here: sten.tore@unitaestate.com

If you have any further questions: call +47 95 109 108 or send an email to the above email address.

Remember to specify which package your company choose.

NB! Should these dates not be possible for you, and you will not want to wait until a possible new event + want viewings in Costa del Sol or Costa Blanca in the near future, please contact us anyway - and we can arrange an individual follow-up.
